

**The Temporomandibular Complex (TMC)**  
**Comprehensive Evaluation & Treatment**  
**Advanced Delineation of Disc Displacements**  
**Module III – Day One**

7:15-8:00: **Continental Breakfast**

8:00-9:00: **Lecture:** Delineation of disc displacement: Anterior, anteromedial, anterolateral, posterior.

9:00-9:30: **Lecture:** Evaluation and comprehensive management of TMJ arthralgia.

9:30-10:30: **Case presentation & Workshop XV:** Evaluation and comprehensive management of anterior disc displacement with reduction: Normal active ROM vs. restricted active ROM.

10:30-10:45: **Break**

10:45-11:45: **Case Presentation & Workshop XVI:** Evaluation and comprehensive management of anterior disc displacement with reduction and intermittent locking. Normal active ROM vs. restricted active ROM.

11:45-12:15: **Lecture:** Recommendations to the dentist regarding the script, dental work, oral appliance, imaging and surgery.

12:15-1:15: **Lunch**

1:15-2:15: **Case Presentation & Workshop XVII:** Evaluation and comprehensive management of anterior displacement without reduction (closed lock). Normal vs. restricted active ROM.

2:15-3:15: **Case Presentation & Workshop XVIII:** Evaluation and comprehensive management of TMJ hypermobility (subluxation) and Ehlers-Danlos syndrome.

3:15-3:30: **Break**

3:30-4:00: **Case Presentation & Workshop XIX:** Evaluation and comprehensive management of TMJ luxation (open lock).

4:00-4:30: **Case Presentation & Workshop XX:** Evaluation and comprehensive management of bilateral TMJ subluxation with associated anterior disc displacement.

4:30-5:00: **Q & A session.**
